Safeguarding Statement

Oxbridge Group Ltd is committed to safeguarding and promoting the welfare of children and young people and expects all staff, volunteers, homestays and any individual working with the organisation to share this commitment. Every young person in the care of Oxbridge Group Ltd should feel safe and protected from any form of abuse or neglect.

Oxbridge Group Ltd believe that:

- Guardians and Homestays can contribute to the prevention of abuse.
- All children have the right to be protected from harm.
- Children need support which matches their individual needs, including those who may have experienced abuse.
- Children need to be safe and feel safe in school and when staying with their guardian or homestay.

Policy Statement

Oxbridge Group Ltd recognises that physical and mental health are of equal value and importance, and the factors which impact health can be varied and complex. We have ensured our mental health policy is reflective of our understanding of mental health and commitment to reducing the stigma and stereotypes which mental ill health may have; allowing us to support students and promote an openminded and collaborative environment which promotes best practice for being mentally well. Due consideration and a full risk assessment based on the recommendations of Health Care Professionals would be undertaken prior to offering Guardianship to any student with existing mental health issues, so that we can ensure that we may meet their needs accordingly.

Policy Aims

This policy is designed to give all members of the Oxbridge Group Ltd team a clear list of guidelines in case of any student who may be suffering with mental ill health.

The purpose of the policy is to help the young person reach the appropriate support for their own needs, and to raise awareness of the different types of mental health.

Oxbridge Group Ltd will respond appropriately to mental health emergencies in line with both this policy and the relevant policies and procedures of the schools.

When a student is suffering from mental ill health they may be at risk from all forms of serious harm including abuse, exploitation, radicalisation and trafficking. The Oxbridge Group Ltd Safeguarding and Child Protection Policy clearly states our commitment to protect children and young people from these risks.

*Your Success,
Our Pride*

Promoting a mentally healthy environment

Encourage students to develop resilience and mindfulness with mental health; promoting open conversations and reducing stigmas

The policy provides a model and framework for response and dealing with incidents dependent on the risk posed, and encourages partnership working with other agencies to reduce the number of students who may suffer from mental ill health.

Relevant Government Guidance

Oxbridge Group Ltd refers to several government guidance and policies which are detailed in the following documents:

- Keeping Children Safe in Education – Statutory guidance for schools and colleges, (2025) [Keeping children safe in education from 1 September 2025.pdf](#)
- Working together to Safeguard Children (2023) [Working together to safeguard children 2023.pdf](#) (publishing.service.gov.uk)
- Improving the Mental Health of Babies, Children and Young People: [Improving the mental health of babies, children and young people - GOV.UK](#) (www.gov.uk)
- Promoting Children and Young People's Mental Health and Wellbeing [Promoting children and young people's mental health and wellbeing - GOV.UK](#) (www.gov.uk)
- Mental Health and Behaviour in Schools [Mental health and behaviour in schools - GOV.UK](#) (www.gov.uk)
- Mental Health Act 1983 [Mental Health Act 1983](#) (legislation.gov.uk)
- Mental Health Act 2007 [Mental Health Act 2007](#) (legislation.gov.uk)
- Promoting and Supporting Mental Health and Wellbeing in Schools and Colleges (2021, updated 2025) [Promoting and supporting mental health and wellbeing in schools and colleges - GOV.UK](#) (www.gov.uk)

Definitions

- *Mental Health:* "Mental health is an individual's cognitive, behavioural and emotional wellbeing" (Mind, 2020).
It's something we all have - including every child and young person. Mental Health can be viewed as on a continuum or flexible/fluid – we have periods of being mentally healthy and periods of mental ill health and support or response may differ dependent on this.
- *Wellbeing:* "The state of feeling healthy and happy" (Cambridge English Dictionary)
There are actions and behaviours which promote wellbeing and health; including lifestyle, social, physical health and emotional health. Outside factors or influences may have

*Your Success,
Our Pride*

positive or negative impact on wellbeing and students can ensure to understand their own wellbeing and what promotes a healthy mindset for them individually.

Key Contacts

Within each school, there will be a Mental Health Lead. In the Host Family, the Lead Host would be responsible for the promotion of good mental health and to escalate or ask for outside support should they feel the student may be in need of further support.

The Mental Health Lead of Oxbridge Group Ltd is **Steph Gilbert**, UK Director and DSL. She is responsible for promoting best practice in the promotion of a mentally healthy environment and for assisting students to access further mental health support services should they require it. She is not a medical professional, and so she would not be able to offer assessment or diagnosis of any mental health conditions. She would work with the student and/or school, parent, health professional or host family to ensure the most relevant and appropriate support for the student.

Other Relevant Contacts for Mental Health Support

- Mind: [Information for young people on mental health and wellbeing - Mind](#)
- Childline: 0800 1111
- GP
- CAMHS
- School Mental Health Lead
- Private Assessment/Counselling (online or in person)

Full List of Mental Health Support is listed in Appendix D.

If the student presents as a high risk mental health emergency, emergency procedures would be followed with assessment and medical support from A&E in line with any other medical emergency.

Promoting good Mental Health; a whole company approach

Oxbridge Group Ltd recognises that mental health can be viewed as fluid or on a spectrum, and that external or internal factors may cause changes to what students may describe as normal mental health. There are additional considerations; such as pre-diagnosed mental health conditions, or undiagnosed mental health conditions. As students are away from home in an environment which may not be familiar, this presents opportunities for poor mental health to manifest.

By openly discussing and normalizing fluctuations in mental health, Oxbridge Group Ltd hope to remove the stigma which some mental ill health or mental health conditions may carry for students or their families. We also hope to ensure that all staff, schools and hosts are able to signpost students to access accurate support or reference services.

*Your Success,
Our Pride*

The Mental Health Continuum is detailed in Appendix A, and students may fluctuate between the categories based on a multitude of aspects. Oxbridge Group Ltd would like all students to ideally be within the Healthy (Green) section during their stay in the UK, and would signpost students who are Reacting, Injured or Ill to relevant social or professional care.

Oxbridge Group Ltd focus on the four areas below to promote a mentally healthy environment:

- Reduce Stigma and improve mental health awareness
- Encourage connection and open conversations about mental health and support access
- Being physically active – mental and physical health are greatly linked
- Providing a mentally healthy environment (at School, Home and beyond)

Oxbridge Group Ltd promote a mentally healthy environment by encouraging open discourse with students, parents, hosts and schools about mental wellbeing and prioritising mental health and wellbeing in equal measure to physical health.

Staff are trained to have awareness of any significant changes in behaviour in order to ensure efficient support is provided where required. Oxbridge Group Ltd work closely with Schools (for internal counselling support), CAMHS for NHS referred counselling or GP appointments and with private providers for counselling or psychiatric support where required.

Oxbridge Group Ltd staff are all trained in Safeguarding, with internal annual training focus on mental health and wellbeing. The DSL has a qualification in NCFE CACHE Level 2 Certificate in Understanding Mental Health First Aid and Mental Health Advocacy in the Workplace, and ensures that staff and host families are updated on mental health support and advocacy for young people.

Impacts of Mental Ill Health

The impact of mental health issues cover a variety of areas, and students should be aware of them in order to afford themselves with the appropriate tools to improve their wellbeing. Staff, hosts, schools and parents should also have awareness in order to support students appropriately.

Mental ill health can affect the following areas, which include but are not limited to;

- **Personal** – low mood, anxiety, change in behaviour, self esteem, decreased confidence.
- **Learning and Education** – ability to concentrate, ability to remember information, absenteeism, regular absences, decrease in academic achievement, decrease in motivation.
- **Relationships** – Tension, strained relationships, communication issues, overwhelm, frustration, helplessness.
- **Day-to-day** – hygiene, sleep, appetite, maintaining relationships, leisure activities.

The impact can vary based on the severity of the mental health issue, and the support available to the individual. Other factors are the attitude and perceptions of mental health in the community which provide context to the student.

*Your Success,
Our Pride*

Factors which can impact Mental Health and Wellbeing

For our students, we must always be mindful of the fact that they are not with their family. A supportive and communicative community around people is one of the most important factors to impact mental health and promote general wellbeing. In this way, the communication with parents is a factor which can improve mental health and wellbeing, allowing for a feeling of place and purpose, promoting positive relationships. Similarly, social factors can have an influence; with relationships with friends, school staff, host families and more having an impact. Financial stresses may add pressure to students, alongside academic pressure, exam pressures or specific cultural expectations. By promoting a positive and open environment we can try to allow students the ability to manage their own perceptions of mental health and navigate any cultural or contextual stigmas or stereotypes.

Signs and Symptoms

Host families and Guardians are uniquely placed to notice any change in behaviour or small adjustments in attitude which may indicate mental health issues. Whilst we would not provide any assessment based on this; we ask hosts, staff, schools and parents to be mindful of the following indicators of low mood or potential mental health issues.

Signs and symptoms of mental ill health or wellbeing issues include but are not limited to;

- Physical harm
- Socially withdrawn/changed relationships
- Change in eating habits
- Change in sleeping habits
- Change in mood
- Joking/making light of self harm
- Joking/making light of suicide
- Discussing plans for self harm
- Discussing plans for suicide
- Drug/Alcohol abuse
- Unsuitable clothing for the time of year (baggy/oversized)
- Disruptive behaviour

Whilst these indicators could be for a variety of reasons, in line with our Safeguarding Policy we ask that all concerns are reported to Oxbridge Group Ltd DSL.

Process for raising concerns about Mental Health and Wellbeing

In the same way which staff, hosts, school and parents would raise a safeguarding concern, the process of raising mental health concerns is exactly the same procedure. Concerns should be raised to the DSL on (07837778298) or through the webform so that relevant support services can be signposted to as appropriate for the student.

Disclosures regarding mental health would be managed in exactly the same way as any other safeguarding disclosure, with confidentiality and only shared with relevant people in accordance with our Confidentiality and Data Sharing Policy, and Safeguarding and Child Protection Policy.

*Your Success,
Our Pride*

The DSL would generally discuss the matter with the School or Host as appropriate to the location of where the student is at that time, and would work with School, Parents, Hosts and Medical professionals to ensure access to the relevant support services.

Dependent on the situation and the level of severity, Oxbridge Group Ltd may signpost to the following services:

- School DSL
- CAMHS
- Local Safeguarding Children Partnership
- Mental Health organisation websites (such as KOOTH)
- Mental Health Organisations (such as MIND)
- Mental Health guidance and support (through School)
- Professional Support (NHS or Private)
- Urgent Help: 111
- Emergency Help: 999 or A&E

How to Support in a Mental Health Crisis:

A Mental Health Crisis could be:

- There is significant risk to the individual (self harm/suicide)
- There is a significant risk to others
- You do not feel that you/others can keep the individual safe
- Risk of harm to wellbeing is generally significant
- Individual may **ask** for emergency help

In the case of an emergency, Oxbridge Group Ltd would always refer the student to A&E for assessment.

It is very important to note that schools offer counselling as part of their services and may not always notify parents/guardians of these arrangements unless a disclosure meant that the wellbeing or safety of the student was at risk. Oxbridge Group Ltd have partnerships with online private counselling as well as connections with mandarin speaking BACP or HCPC registered professionals in Educational Psychology, Psychiatric Support and Counselling.

Oxbridge Group Ltd are not appropriately trained to make assessments on student's mental health; any assessment, diagnosis or recommendation for treatments or next steps would be informed by a relevant and appropriate medical practitioner.

Process for Removal from School

There are some specific circumstances whereby it may not be possible for the School to accommodate the student due to mental ill health. In these circumstances, and only on completion of a 'Removal of a Student' form, Oxbridge Group Ltd would take care to place students with appropriately trained host families who are able and willing to host students with mental health issues.

*Your Success,
Our Pride*

Should a student be high risk, or Oxbridge Group Ltd feel we'd be unable to prevent risk of harm to this student within a host family environment, we would refer the student back to A&E for emergency assessment. In cases whereby a student is not well enough to attend school due to significant mental health issues, we would seek support of parents to facilitate student's return home, or for parents to come to UK to support their child, whichever is most appropriate.

Any assessment or recommendation for removal from school would be informed by a relevant and appropriate medical practitioner.

Oxbridge Group Ltd have a small number of families with appropriate training who would be able to host students suffering from significant mental health issues, such as suicidal ideation. These hosts are based in:

- London (Mental Health Social Worker)
- London (Nurse)
- Hull (Retired Psychiatric Nurse)
- London (Social Worker)
- London (Young People Support Worker)
- Oxford (Teacher)
- Leicestershire (Nurse)
- Brighton (Teacher)

Ongoing Support for Students with Mental Health issues

For students who are receiving support or recovering from periods of mental ill health, Oxbridge Group Ltd would work with the School, Parents and Hosts as appropriate to ensure a safe and supportive environment for the young person. Due consideration and a full risk assessment based on the recommendations of Health Care Professionals would be undertaken prior to offering Guardianship to any student with mental health issues, so that we can ensure that we may meet their needs accordingly.

Health Care professionals would normally create a 'Safety Plan or Wellness Action Plan' which Oxbridge Group Ltd would take time to go through with the student to ensure that they have understanding and feel it is appropriate for them at that time.

This plan would be shared with appropriate people in order to offer the best support to the young person, and would be drawn up by a Mental Health Professional, with the young person, to ensure that goals are achievable and manageable. The Safety Plans will often include information on access to further support should mental ill health prevail or worsen, and we would work with the appropriate professionals to ensure that the student is able to access relevant services.

Suffering from mental ill health should not prevent students from accessing their education or living their life as they normally would, and only in cases where the student is a risk to themselves or others would removal from these environments be discussed by medical professionals.

*Your Success,
Our Pride*

Appendix A: Mental Health Continuum

*Your Success,
Our Pride*

Appendix B: Wellness Action Plan/Student Safety Plan

WELLNESS ACTION PLAN

Wellness Action Plans would be provided by Health Care Professionals or Educational Professionals.

As A Guardianship Company we would work with each professional provider to create a relevant Wellness Action Plan or Safety Plan which is personalised to the student's needs, but we recognise that we are not medical professionals and we would not advise students on medical issues accordingly.

All plans would be discussed with parents and shared with relevant parties as required for the safety and wellbeing of the student.
